Profession Summary

Accomplished Quality Assurance Specialist with 9+ years of experience in software development, testing, and automation. Proficient in test automation, performance testing, and load testing, with expertise in Java, Python, C#, VBScript, SQL, JavaScript, and Apex. Skilled in Agile methodologies and process improvements that elevate product quality and efficiency. Proven track record in leading QA initiatives, developing effective testing strategies, and implementing automated frameworks, achieving a 40% reduction in defects and a 30% increase in testing efficiency. Expertise in backend and frontend testing, API testing, and E-commerce platform development using CMS tools.

Experience

Kansas Turnpike Authority

Wichita, KS

QUALITY ASSURANCE SPECIALIST

10/2024 – Present

- Solely responsible for developing automation scripts, streamlining processes, and reducing discrepancies by 25%.
- Conducted 300+ product tests, ensuring compliance with user requirements and reducing post-launch defects by 40%.
- Collaborate with team members to design, develop, test, and deploy new web applications and features.
- Implemented QA best practices, improving data integrity by 20% and reducing recurring issues by 30%.

Amdocs

Pune, India

SOFTWARE TEST SPECIALIST

11/2022 – 11/2023

- Developed BDD automation scripts using Python, reducing testing time by 30% and increasing test coverage.
- Engineered automated testing frameworks using Ansible, shell scripts, Kubernetes, Kafka, and Docker, reducing manual testing by 60%.
- Improved deployment efficiency by 25% through the implementation of scalable CI/CD pipelines on AWS using Groovy.

Euronet Worldwide

Thane, India

SENIOR TEST ENGINEER

11/2020 – 11/2022

- Mentored and trained a team of 7+ junior engineers in test automation and SDLC best practices, improving team efficiency.
- Increased test coverage for critical financial systems by 30%, optimizing automation frameworks with Selenium, Cypress, and Java.
- Automated API and RESTful service tests, improving product quality by 40%.
- Leveraged Excel VBA macros for automated data validation, increasing data handling accuracy across projects.

AQM Technologies

Mumbai, India

TEST ENGINEER

01/2019 – 11/2020

- Developed automated test suites with Cypress, UFT, UiPath, and Selenium, reducing manual testing efforts by 25%.
- Identified critical defects through regression testing, leading to a 30% improvement in client satisfaction scores.
- Improved integration testing for SAP HRMS & Payroll systems, ensuring seamless functionality across the platform.

Tata Capital

Thane, India

APPLICATION TEST DEVELOPER

02/2017 – 12/2018

- Optimized business processes by implementing custom Salesforce Apex solutions, significantly enhancing workflow efficiency.
- Executed detailed test scripts using Selenium WebDriver, ensuring adherence to high-quality standards for web applications.
- Collaborated with cross-functional development teams to facilitate effective testing and maintain product quality in high-pressure environments.

Dynamic Dreamz

Surat, India

FULL STACK DEVELOPER

09/2016 – 02/2017

- Improved E-commerce platform performance using PHP, HTML, and Angular for dynamic web applications.
- Managed content updates for 20+ websites using WordPress and Drupal CMS, ensuring timely and accurate deliverables.
- Customized plugins and enhanced web functionalities to align with client-specific requirements.

Votiko

Navsari, India

WEB DEVELOPER

06/2015 – 08/2016

- Developed and maintained responsive websites and web applications using HTML, CSS, JavaScript, and PHP.
- Customized front-end and back-end functionalities using WordPress and Shopify, ensuring robust performance.

Projects

CI/CD Pipeline for Microservices Architecture

Nov. 2022 – Aug. 2023

- Designed and implemented a scalable CI/CD pipeline using Jenkins, Docker, and Kubernetes.
- Integrated automated testing, code quality checks, and deployment processes.
- Reduced deployment time by 50% and improved overall software delivery efficiency.

API Testing Framework

Sep. 2021 – Dec. 2021

- Developed an API testing framework using Postman and SoapUI.
- Automated end-to-end API tests for critical business processes.
- Increased API test coverage by 35% and reduced manual testing effort by 60%.

Automated Testing Framework for Financial Platform

Jan. 2020 – Nov. 2020

- Developed a custom automated testing framework using Selenium WebDriver and Java.
- Implemented BDD scenarios with Gherkin and Cucumber.
- Reduced regression testing time by 40% and increased test coverage by 25%.

Skills

Programming: Java, Python, HTML/CSS, JavaScript, C#, SQL, PHP (Laravel), VBScript, VBA, Apex

Testing Tools: Selenium, Gherkin, Cucumber, TestNG, UFT/QTP, UiPath, JMeter, Maven, Groovy, Jenkins, React, Cypress, Appium, NodeJS, Salesforce, Jira, SOAPUI, Postman, Excel Macros

Other Tools: Kubernetes, Docker, Kafka Stream, Kibana, Ansible, Confluent, AWS, Azure, GIT, Linux

Education

Gujarat Technological University, Gujarat, India

June 2014

Bachelor of Engineering in Information Technology

GPA: 3.56
